PROFESSIONAL SUMMARY

Motivated and detail-oriented AI & Data Science undergraduate with strong programming skills and a passion for building intelligent solutions. Experienced in computer vision, full stack development, and GPU programming. Eager to contribute to innovative projects and grow in technology-driven environments.

EDUCATION

- **B.Tech Artificial Intelligence and Data Science**

AVS Engineering College, Salem | 2023 – 2027

CGPA: 8.45/10
- **Higher Secondary (12th)**

A.E.T Higher Secondary School, Attur | 81%
- **SSLC (10th)**

Vanivikas Higher Secondary School, Kothambadi, Attur

PROJECTS

- **Video Surveillance System**

Python, OpenCV, Flask, Computer Vision

 - Developed a real-time surveillance system for monitoring video streams.
 - Implemented motion detection and event-based recording.
 - Built a web dashboard for viewing live feeds and logs.
 - Improved security monitoring through automated alerts.

INTERNSHIP EXPERIENCE

- **Full Stack Development Intern – Livewire**

 - Developed responsive web pages using HTML, CSS, and JavaScript.
 - Learned frontend and backend integration concepts.
 - Worked on web application deployment basics.
- **CUDA Python Intern – Advi Company**

 - Learned GPU programming concepts using CUDA Python.
 - Implemented parallel computing tasks for performance optimization.
 - Gained exposure to AI and high-performance computing applications.

CERTIFICATES

- Python Programming Certificate (2024)

- Generative AI using Python

- CUDA Python – Advi Company

- Power BI for Beginners – Simplilearn

- Viksit Bharat Certificate of Participation – SON College of Business and Management

- Skill Development Training Program – Certificate of Participation

- Industrial Visit Certificate – Robotics Company, Thrissur, Kerala
