

SABHARISHWARI PERIYASAMY

Student — B.Tech (Artificial Intelligence & Data Science)

sabarisathya37@gmail.com | 8668132537

PROFILE SUMMARY

Motivated and detail-oriented B.Tech Artificial Intelligence & Data Science student with a strong foundation AI, machine learning, full-stack web development, with hands-on experience building real-world projects in computer vision and web applications. A quick learner with strong problem-solving, teamwork, and communication skills, eager to contribute to innovative software solutions while continuously expanding technical expertise.

EDUCATION

AVS Engineering College, Salem

B.Tech in Artificial Intelligence and Data Science
2023 – 2027 | CGPA 8.32

A.E.T Higher Secondary School, Attur

2021 – 2023 | Percentage 81

Vani Vikash Higher Secondary School , Attur

2016 – 2021 | Percentage 100

SKILLS

- Java
- Python
- Excel
- Front-End Development (HTML, CSS, Javascript)
- Power BI
- Artificial Intelligence
- Machine Learning
- Deep Learning

EXPERIENCE

Full Stack Web Development Intern

2-3 Months

Livewire

- Gaining hands-on experience in frontend and backend technologies like HTML, CSS, JavaScript, and basic backend frameworks.
- Developed and deployed web applications during the internship, improving skills in problem-solving, database integration, and real-world project development.

CUDA Python Intern

ADVI Tech Company

- Completed a CUDA Python internship, learning GPU programming concepts and parallel computing using Python.
- Developed basic CUDA-based programs to improve computational performance and gained hands-on experience in GPU acceleration.

PROJECT EXPERIENCE

E-Commerce Website

Developed a user-friendly E-Commerce website using Python, HTML, CSS, JavaScript, and PyWebIO. The application allows users to browse products, add items to the cart, and complete purchases through multiple payment options. The project focused on creating an interactive shopping experience with an attractive interface and efficient product management features.

Video Surveillance

The system detects and tracks multiple objects with high accuracy, enabling efficient real-time surveillance. It incorporates computer vision and deep learning techniques to improve monitoring performance and object recognition. This project strengthened my skills in AI, computer vision, real-time video processing, and software development.

CERTIFICATIONS

- Power BI— Simplilearn
- Python — GenAI
- Full Stack — Livewire

LANGUAGE

- Tamil
- English
- Malayam

STRENGTHS

- Quick Learner
- Problem Solving
- Adaptability
